Find

Fonts

Two most important links:

- [The WebFont Loader](#) is a JavaScript library that gives you more control over font loading than the Google Web Fonts API provides. The WebFont Loader also lets you use multiple web-font providers. [↗](#)
- <https://github.com/wikimedia/jquery.webfonts> [↗](#)

Also:

<http://fontcdn.org> [↗](#) - FontCDN - A simplified interface for working with Google Fonts

See: [Fonts](#)
