having pref user\_assigned\_modules and feature\_modulecontrols enabled makes left and right columns disappear | Themes for Tiki Wiki CMS Groupware  
having pref user\_assigned\_modules and feature\_modulecontrols enabled makes left and right columns disappear

Status  
 Open

Summary  
having pref user\_assigned\_modules and feature\_modulecontrols enabled makes left and right columns disappear

Description  
layout is basic, when you turn the prefs on, the columns appear fine, but when you navigate away to any other page, suddenly only the center column is visible
