having pref user_assigned_modules and feature_modulecontrols enabled makes left and right columns disappear | Themes for Tiki Wiki CMS Groupware

having pref user_assigned_modules and feature_modulecontrols enabled makes left and right columns disappear

Status

● Open

Summary

having pref user_assigned_modules and feature_modulecontrols enabled makes left and right columns disappear

Description

layout is basic, when you turn the prefs on, the columns appear fine, but when you navigate away to any other page, suddenly only the center column is visible

Assigned to
