Custom Bootstrap stylesheet sources

<https://bootstrap.build/> - Free Bootstrap Builder (Bootstrap 5, so for Tiki 25 or newer)

<https://themestr.app/> - Bootstrap Builder, Themer & Customizer (Bootstrap 5)

<https://bootsnipp.com/builder> - "A design element gallery . . . Find snippets using . . . Bootstrap."

[Bootstrap Magic](#) - Input values for variables and see effect in real time; can export Less variables or CSS (for Tiki versions using Bootstrap 4).

(There are many more of these sources. They haven't been tested specifically regarding Tiki.)
