Rule is in design.css

Gary Cunningham-Lee Sun 24 of Nov, 2013 13:51 GMT-0000

The rule that hides this (related to ajax) is in design.css. We'll need a file like design.css (should have a more appropriate name) for things bootstrap.css doesn't cover.

The original document is available at <https://themes.tiki.org/item65>
